

GRAP e-learning

Rodney Petersen

**Technical Support Services
Office of the Accountant General**

The need for a GRAP e-Learning platform

- Requests for training on GRAP increasing.
- On-line GRAP practical guide and training resource mechanism to increase ease of access to guidance and training for practitioners.
- Audit results identified lack of knowledge and skills in relation to GRAP.
- Consultants too often used to prepare AFS.

Project Initiation and Process

- Approved donor funding – 30 September 2015
- Kick start project – 2 November 2015
- Content conversion and review into e-learning format – 31 Standards by 31 May 2016
- User Acceptance Testing – 8 and 9 June 2016
- Project handover – 30 June 2016
- Project closeout – 31 July 2016

Where are we now?

- Deploy onto NSG's learning platform and live testing.
- Draft memo's/circulars regarding GRAP e-learning to all GRAP- based entities.

Who should participate in the course?

- OAG identified course benefit to all practitioners involved in municipal GRAP financial accounting and reporting.
- Responsibility to identify specific participants would rest with the Municipal Manager or Municipal Chief Financial Officer.
- Course is available to various participants per municipality depending on capacity.

Benefits

- Increased ease of access to GRAP guidance and training for practitioners
- Improved GRAP knowledge and skills for practitioners
- Reduced reliance on consultants
- Enabling compliance with MFMA financial accounting and reporting requirements
- Improved accountability through better recording, control and better informed decision making.

Thank You
